

*Thank you*

for your participation in the 500 Frog Project!

Your kindness and time spent painting this frog will bring joy and comfort to a child in Japan that has been traumatized by the March 11th disaster.

Your frog can be painted realistically or fantastically, whatever your heart directs. Just make it as beautiful as you can as at it will become a symbol of caring and be someone's best friend for many years.

Please do not paint a human face on your frog! Japanese tradition depicts an evil frog-being with a human face
